CENTLEMEN t—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, 1 have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire outh-kastern Coast of the Island from Johnson Straits

Straits

Unser the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endesvor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district. district.

As the Dominion now possesses exclusively the right
to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail

amer of a superior class to the one now plying on the ist,—and also better mail facilities in each Settlement

steamer of a superfor chas to the one own plants of the coast,—and also better mail facilities in each Settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a relegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most streamous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in navigating the Gulf.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious ance of the Government, be taught the arts of civiliza-tion, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

Hospital at Nanaimo, I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to insure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The Fisheries along our coasts premise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch or industry, I, will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and bominional character.

In concusion, Gentlemen, if you should do me the hoper to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, Gentlemen, your obedient servant.

It is enstomany on such occasions for candidates to express their views and opinions on the leading issues of the day and in deterence to this custom I beg to offer for your approval the following policy. I am prepared to advocate:

Ist Repeal of the Permanent Civil List Act.

laf kepcal of the Permanent Civil List Act. 2d Repeal of the Quantication of Voters' Act. 3d Ameadment of the Registration of Voters' Act. 4th A National System of Free Schools. 5th Mail Communication and Good Roads to outlying Settlements, 6th Local Kond Boards, having power to issue contract to settlers.

7th Assimilation of our Pre-emption Law with the
Free Land system of Canada.

8th Government assistance to farmers for irrigating

purposes.

I am opposed to all private legislation for the purpose of granting monopolies, as I consider them to be detrimental to the interests of the community and at variance with the principles of sound political economy.

In conclusion I assure you that I shall deem it a pleasure as well as my duty to support all measures calculated the velop the resources of this district and of the bearing sentrally. ovince generally.

District.

CENTLEMEN 1—Having been requested by a number of the electors, to allow myself to be a minated as one of your representatives in the Legislature for the Province of British Columbia, after due consideration, I have much pleasure in acceding to that request, and should you deem me worthy of that honor, shall elected, at all times make it my study to support as he measures as will promote your interests and those of the country at large.

I am in favor of increased postal communicatation and a liberal non-sectarian school system; the abolition of road toils; improving and making of trails and wagob roads in agricultural and mining districts; increases facilities for the pre-emption of land. I would oppose the permanent Civil List Bill and all extravagant expenditure of public money.

I have at present merely touched on those subjects that occupy the first place in the public mind, but shall be happy at my future time to hear your views and express my own more fully.

I have the honor to be, entlemen, your obedient servant, GEORGE COXON.

To the Electors of Yale-Lytton District the receipt of your requisition, and in accepting the honor you wish to confer on me, I will endeavor, to the best of my ability, to carry out your wishes and opinions. the best of my ability, to carry out your wishes and outlons.

I am not in favor of pensioning the officials, and will also yote for the repeal of the Pennament Civil List Act. I will also yote for the repeal of the Qualification and begistration of Voters' Acts, as they are, in my opinion usfust and numited to the people of this colony. I will resist any attempt of monopoly. I am in favor of an enlarged system of education.

In conclusion, I assure you that it will be my duty to advocate economy in every department of the Government, and to suppor that policy best calculated to benefit the colony, that I will act in unison with the liberal and progressine party, whose principle it is to extend the power of the people and to remove those injurious laws, which are so degrading to the community.

Chillemen: —While travelling through your district in July last, I was the recipient of very great encouragement to offer myself as a Candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominional politics, having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible. I shall be a stanch supporter of the present Government of Canada'so long as that Government shall administer the affairs of this Dominion in general, at dof this Province in particular, in a satisfactory manner.

Knowing the feasibility of the Canadian Pacific Rail-road from personal observation along the greater part of the probable fine of route, and having advocated such an enterprise in my Gerland Journal, published in Ontario: as well as on this coast for the past twelve years, I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Equimal or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolie labor either on the Railroad or other public works and will strenuously resist any attempt in that direction. Should the Tariff problem not be solved by the Local nd will strenuously resist any attempt in that direction. Should the Tariff problem not be solved by the Local ogislature; but a modification of the Canadian Tariff,

Legislature: but a modification of the Canadian Tariff, is so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the F-deral Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Scoke to Como; Jong before the re-opening of Parliament; should this, however, not be the case I shall, if elected your representative, says it, that every moting from Scoke to Comox long before the re-opening of Parliament; should this however, not be the case I shall, if elected your representative, see to it, that every settlement is duly cared for in this important particular. The subject of Immigration is one of great moment and shall always have my most sarnest support both in the House and elsewhere—with increased demand for agricultural produce, farm laborers will be required in every settlement. These will soon locate on unoccupied lands, together with men of small capital and in their turn become producers. Their places will then have to be filled by others so that a steady stream of isamigranta from the Rastern Provinces particularly, would be the greatest possible boon to this portion of the Dominion.

The early commencement and completion of a Dry Dock at some Island port, and I think Nanaimo has a strong claim upon such a work shall not be overlocked. I shall advocate Vote by Ballot at Municipal, Local and Federal elections till that great reform becomes the law of the land.

Telegraphy, Lighthouses, Harbor Improvements, Hospitals, Asylums, Penitentiaries, Fisheries, Geological and other surveys, together with the Indian question and other surjects that will be continually presenting themselves, shall have my constant consideration and advocacy wherever conducive to the material prosperity of the Province in general and my constituents in particular.

I rest my claims upon your support centlemen, on my

lar.

I rest my claims upon your support gentlemen, on my long residence in the Eastern Provinces and on this coast; my intimate knowlege from actual travel of the wants of every agricultural and nearly all the mining districts of the province—my unswerving support of Confederation and the Railroad since '59, and my having no special connection with any particular interests, commercial, agricultural or mining, I am enabled thus to look upon them all from an independent and impartial stand point, and in advocating their best interest to assist in raising this province of almost illimitable re iources to the proud elevation it will soon attain as the Western outlet of the Great Dominion.

IMPORTER OF

The people of New Westmineter are an eminently practical people, and the Town Council of the ex-capital is their faithful exponent. They have recently shown in a high degree those remarkable qualities that contribute largely to success. and which some cynical personage has reduced to their lowest denomination under the name of "flatter and beg." The occasion was the arrival of Mr. Lan gevin. The Council very properly ex-pressed its gratification at meeting that distinguished gentleman, and its confi-dence in the McDonald cabinet for being so prompt in setting the surveyors at work on the railway route and the geologists in making their survey. The Council is a large-minded and thoroughly patriotic body too; for they reminded their guest that British Columbia is a great eventry, and, when "every rood bears its mau," that it would play no second rate part to any other Province in our great Dominion. Now no objection can be taken to their courteous recognition of the distinguished representative of the the distinguished representative of the Dominion cabinet nor to their patriotic allusions to our country; but we must say that we take exception to some parts of what follows in the address. For instance we may cite the following state-

" In arranging the terms of Confederation, the preponderance which Victorian interests had in the then governing body of the colony enabled them to insert as special terms the building of certain works in their neighborbood, while the sites of others which were to be erected were left open questions, and it is now currently reported that they are agitat-ing to secure these also. Burrard Inlet had, we contend, as just a claim to a marine hospital as Esquimalt or Victoria, as the return of shipping will show, and the establishment of one there would have materially advanced the shipping interests of that port.

One would suppose that the Council might have seen the utter folly of making such a complaint about "the building of certain works in the neighborhood" of Victoria, and particularly so, when they were fully convinced that there is no port in the Province so suitable at the present time for a Graving Dock'as Esquimalt, when the question of making it pay as a commercial speculation is taken into ments of the navy and merchant shipping are consulted. What may be said of the Dock being built here is true of the Hospital. Burrard Inlet vessels all call here up and down; besides, here the best medical advice can be had. The assertion that "Victorian interests" are agitating to get the other public works is sheer moonshine. If New Westminster wants the Penitentiary, let it have it by all means; for we would as soon think consideration, and also when the requireby all means; for we would as soon think of petitioning Mr. Langevin to have the amall-pox located he repermanently, as to hear Sir.—We the undersigned, whose child object to New Westminster getting an opportunity to reform "the waifs and strays" of humanity. As for the Lunatic Asylum we don't find anything about it in our copy of the terms of Conderation. What says the City Clerk of ation. What says the City Clerk of Queensborough? Next the Town Council speaks of mails. Here is their say on that subject :

"In respect to mail communication, we trust you will not fail to see that New Westminster, as the head of ocean navigation, should be placed on as favorable a footing as Victoria; and, though it may not be in your department, we trust that you will represent to the Postmaster-General the advisability in any future contracts that are made for earrying the mails of providing that the steamers should make this the terminus of their journey, calling at Victoria on the up and down trips. The saving which this would effect in the cost of the transportation both of goods and passengers, not to speak of the damage and delay to goods caused by repeated traus-shipment, would greatly con-duce to the extension of trade in the interior, enabling the merchants established on the Mainland to compete with those in Victoria, Mainland to compete with those in Victoria, and by the saving in freights, passages, commissions, wharfages, &c., tend to reduce the espense of living. We would also venture to suggest that postal subsidies should be given direct to steamers running in the inland waters of the province instead of being included in a general contract, in order that the convenience and advantage of the public may be more considered, and more frequent and regular communication maintained than has hitherto been the case."

Now if the Dominion feels itself rich enough to run an ornamental line of steamships to New Westminster we concur. We shall not object to another line for Nanaimo. Rut at the same time we may be excused, if we think merchandise for the interior would still be supplied from Victoria, at least till we get a half a million of people in the country; and before that time we hope to see New Westminster connected with railways from the east and south. As to subs dies for inland steamers, they will be given as a matter of course But here is the "nib" of the address :

"And now, reverting to points more im mediately under your own control, we would call your attention to the advantages which this city possesses as a site for the Provincial Penitentiary and Lunatic Asylum. The healthy climate, good water, varied scenery and central position, all combine to recommendities the most suitable spot. Other locali-ties may certainly possess, equally with us, some of the advantages named, but none possess them all combined. Our position, when we consider the proportion of population in the different districts and the means of communication, is, we believe, the most central in the province, and in other respects we rank second to none."

Now so conrteous a welcome and so "practical" an address, deserved a reply m the Minister of Public Works, and here is the pith and substance of his answer in the following extract:

"You may rely upon the disposition of the Government of Canada to do justice to the Mainland of this Province, as well as to Vancouver Island, and I shall not forget, when the question of public works comes up, your memorial. However, I cannot help thinking that the future prosperity of your Province depends, in a great measure, on a union

of that power which one Act of Parliament can exercise over another.

In the framing of the "Qualification of Voters' Act." I had no mere to do than I had with the "Road Act," the "Real Estate Act" and the "Education Act," which proved to be as defective as they were inoperative. But the principles and the technicalities which ought to constitute the spirit must be rigidly adhered to by these who profess to have respect for law.

It is well known that when I selected Esquimalt as residence I considered it the key of the colony, and I think so still. I may not be able to bring the Graving Dock or the Railway to my own door, but I may be instrumental in bringing one or both of them to some of yours without the aid or cost of a dredger.

It was not difficult to persuade some of my friends when I was in England to try the experiment which brought steamers from England, and although the success was not equal to expectation, I hope the day is not far distant when steamers of greater pretensions than the Robert Lowe or W. S. Lindsay will onliven the wharves of Esquimalt harbor.

The Tariff which only came into operation a few years ago was the emanation of your most actute statemen, who considered free port had run its day.

The revenue previously derived from Real Estate or a land tax, was to be provided by a tariff which included a duty on foreign grain. There can be no denying but that it has worked for the benefit of the farmers and industrious classes, and injured no one but those who can a take care of themselves.

GENTLEMEN,—After considerable hesitation, arising from causes which I can easily and I trust satisfactorily explain when the proper time arrives, I unreservedly place myself in your hands as a candidate for your sulfrages at the approaching election.

It is satisfactory to know that great unamity prevails in the various sections of the colony upon the extension and improvement of Roads and Bridges; upon mail and telegraphic communication, as well as upon education and retrenchment, and I yield to mose in an earnest desire to see all those accomplished to their full-set extent and upon their respective merita.

As a commercial man I will do nothing to retard, but everything to further our maritime interests and from intercourse with our American neighbors and the outer word, and as one who in early life had a deep interest and profited largely by the fisheries of New foundland and that trade of the 8t Lawrence, it will be may endeavor tencourage as much as possible for this coast and our harbors those branches of industry which have flourished so long on the coast-of the Atlantic.

A good Wugon Road to Sooke, I consider absolutely necessary to the rapid development of that district, and I will support a special appropriation for that purpose. The present Franchise Act I consider should be amended so as to allow every good, loyal, and industrious British subject to become a voter.

I will take an early opportunity to see you personally, and explain my political view more fully; but in the meantime, I will assure you that if you should honor me with your confidence by returning me as one of your representatives, I will support every good measure, no matter from whom it may originate.

Sitka.

The little village of Sitka usually very quiet has within the past few days presented spectacle the like of which it is seldom the misfortune of one to witness,-the excitement incident to an expected Indian a tack upon the place. The cause of all this alarm appears to be as follows: Sometime during the month of May, the schooner Mary Taylor from San Francisco arrived at this port and shortly after her arrival, was seized by the customs authorities, and sent to San Francisco under seizure ; evidence was in the she was engaged in smuggling whiskey into three months, because it recently published this place. This ended the matter until a an article entitled "Islam and the Pope," day or two ago a Portuguese, formerly a calculated in the opinion of the authorities sailer on the Mary Taylor, employed two Russians with their boats to go on an expedition with him; they started for an Island the Empire. The Levant Herald pleads of on which the Mary Taylor had deposited a quantity of spirits; whilst taking the spirits to reconsider the penalty imposed. The arboard they were surprised by a party of ticle which entailed this penalty purported to Indians who demanded from the Portugese a heavy potlatch; or that they would report who commented on the Porte's recognition of him to the hyas typee at Sitka. This was Monsignor Franchi's diplomatic rank as amrefused them and a quarrel ensued during bassador from the Pope, with the narrowness which one of the Indians a chief received a of view and di-regard of logic which, says mortal gun shot wound; the Portuguese with the Herald, might be expected from a zealous his crew managed to get into their boat and true believer trying his hand at "leader" started for Sitka and or their arrival there, writing. were seized by a custom house officer who afterwards with a detachment of soldiers, tarted for the Island to secure the remainder of the spirits which the boat was not able to carry, and which they secceeded in doing, and returned with it to Sitks. The following norning a deputation of the Indians headed by their chief came into the town of Sitks to nterview the hyas tyhee; they demanded the Trutch and Watt have gone to Kamloops but Portuguese who they alleed had taken the life of their sub chief. They were refused ment and would be punished if found guilty. Much fear was manifested throughout the town unfortunate ox had its leg broken by a falling

Within eighteen months the Captain, a new and magnificent ironclad, went down with all on board. Soon after, the Agincourt, of 6,621 tons, the pride of the Euglish navy, light, with a smooth sea, and was destroyed. Next the magnificent armored ship Warrior, which brought the remains of George Peabody to this country, was lost near Leghorn. Last July the iron troop ship Mageara, 1,395 tons, was totally wrecked on an island south of the ladian ocean. The English people are anxiously demanding the reasons for these great calamities." Our cotemporary commits a second error. It was the Monarch brought over Mr. Peabody's remains.

THE FUR TRADE .- Improbable as it may seem in the present state of the weather, the for trade is very lively. Dealers look for ward to an active demand during the coming Fall and Winter, and are making their pre-parations accordingly. The fashionable furs will be seal skins, ermine and Astrachan lamb skins. Of seal skins, three times as many have been imported this year as were imported last year, and the stock of ermine has been increased in about the same proportion. Of Astrachan lamb skins, about 80, 000 have been imported. Sable, mink and nuckrat are not so popular. Taking all kinds of furs together, the importations for the year so far are nearly double what they were up to the same time last year, and the stie manufacture is probably equally in

advance. New York Sun. By Glectric Telegraph. A Now Market for our Manufac-

As a result of the incorporation of British columbia with the dominion, a new market has been opened up for our manufactures. That province has been in the habit of purchasing its supplies of boots, shoes, cotton, tweeds, blankets and other such like articles in England and carrying them around Cape Horn. After their long sea voyage, they had to pay a duty of fifteen per cent, or more and consequently sold at a high price, but now they will be bought here, in Outario and Quebec and the duty saved, there being no customs duty on goods imported from one province into another. Two gentlemen from British Columbia, we understand, are here British Columbia, we understand, are nere purchasing a full supply of Canadian-made articles with which to freight two ships for British Columbia. The voyage will be shorter than from England; and there being no dutles to pay on their arrival, the goods can be sold more cheaply than similar English goods could be. It is altogether probable that a considerable trade will thus spring up with the Pacific province, alike beneficial to the eastern and western parts of the domin-

Owing to the absence of customs duties between the provinces, no one can compete with us for supplying British Columbia with such goods as are produced in Octario or any of our eastern provinces. The fact we have mentioned of goods now being shipped from from this country to British Columbia is an evidence, if any more is wanted, of the rapidity with which our trade with that country would be developed if the Canadian Pacific Railway were in existence. The necessity for a long voyage, skirting almost the whole of the continent is enough to prohibit trade between the east and west of the dominion; but it is springing up in spite of this difficulty; and such being the case, it requires little shrewdness to perceive the probability of its extending to a large amount with the building of our railway, which would bring our manuactures within a week's distance of our customers in Victoria and New Westminster.

The "shooting" at Wimbledon commenced with the Princes of Wales prize, which was volume of 590 pages—published by A S. this Sergeant Sache of the 13th Battalion, Barnes & Co., of this city, and notable for Hamilton, Unt. scored 17 points at 500 yds and won £2. This is a high compliment from the Volunteers, especially as Capt. Knox is known to be a strict disciplinarian. The Canadians, although Volunteers like the other competitors, present a more directly military aspect, from the fact that they wear a scarlet jacket, plush trousers, and a cap resembling that of the militia. They bave, doubtless, a large infusion of native vice on the frontier at very short notice, and that in some parts of the Dominion lands are Baptism for the remis-the resurrection of still held by military tenure." The firing for sion of sins; and I the dead, and the life the Queen's Prize commenced on the 12th, but the weather was wet and the shooting very poor. The Canadians, however, had no had their try at the targets up to the time the steamer sailed. Prince Frederick William of Germany visited Wimbledon on the 12th, and the report in the Times says when the royal party reached the lines of the Associated Camp, "a halt was rather unexpectedly called while the Crown Prince of Germany entered into conversation with one of the Canadian competitors, of whom he had, it appears, some previous knowledge." tude or cordiality, it is right to add, but as a measure of precaution." On the 11th Canada was again to the front in the person Dr. Vrontyatckha-the former being a winner of £5 and the latter of £3 in the Alexandra prize. "The Canadians." says the Times, prize. "The Canadians," says the Times, were very anxious to take part in the " inter national" match, the very name of which seemed to invite competition. This difficulty would however arise—if they were admitted, aow could any other colony or any number of J. P. DAVIES & CO. colonies in future years be excluded? And as the match already requires a sufficiency of targets for three squads of 20 men, represent-ing the different branches of the United King-

proprietors in America have been in the habit of foisting on the public "almost any rubbish" they could procure as written by Miss Braddon and issuing the same as having been written exclusively for them, or published from "advanced sheets," supplied by her or with her approval. None of this matter had she either written or seen in any shape whatever until her attention had been called to it when published abroad. The worst offender in the fabrication of this spurious literature, she says, is the proprietor of the New York Sunday Mercury, who, in a late issue of that journal one shrine and that is every breakfast table. Kitsap, S. W. Hovey; Kitsap, C. J. DR. OHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Les & Co. For 24 years I suffered with neuralgia on the brain, which baffied the skull of three first-class American physicians. Latterly broughtits attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot cound the unions Chinese gentleman's prises too loudly, o that all my countrymen similarly affected may visit and find relief, Respectfully,
